

BIO 201: Human Anatomy and Physiology I

Human Anatomy and Physiology I covers the structure and function of the human body. Included is an orientation of the human body; a study of cells and tissues, joints, the integumentary, skeletal, muscular, and nervous systems; and the senses. Dissection, histological studies, and physiology are featured in the laboratory experience. A 120-minute laboratory is required.

Credits: 4

Lab Hours: 1

Lecture Hours: 3

Prerequisites:

BIO 103

*BIO 103 is strongly recommended
