

# BIO 201: Human Anatomy and Physiology I

Human Anatomy and Physiology I covers the structure and function of the human body. Included is an orientation of the human body; a study of cells and tissues, joints, the integumentary, skeletal, muscular, and nervous systems; and the senses. Dissection, histological studies, and physiology are featured in the laboratory experience. A 120-minute laboratory is required.

**Credits:** 4

**Lab Hours:** 1

**Lecture Hours:** 3

**Prerequisites:**

BIO 103

\*Health Science programs do not require BIO 103; however, BIO 103 is strongly recommended for Health Science students before enrolling in BIO 201.

**Program:** [Biology](#)
