

# CIS 291: Case Study in Computer Science

This course is a case study involving the assignment of a complete system development project for analysis, programming, implementation, and documentation. Topics include planning system analysis and design, programming techniques, coding and documentation. Upon completion, students should be able to design, code, test and document a comprehensive computer information system.

**Credits:** 3

**Lab Hours:** 0

**Lecture Hours:** 3

**Program:** Computer Information Systems Technology
