

NWSCC Strategic Partnerships & Industry Training

The NWSCC Office of Strategic Partnerships & Industry Training provides area companies and individuals with a wide range of technical training, administrative assistance, and personal development courses in the belief that learning is a life-long experience. This division, because of its flexibility, provides services not found in the traditional education environment.

The NWSCC Office of Strategic Partnerships & Industry Training staff works with area companies to meet specific training needs. If NWSCC courses do not meet the company's requirements, we will work with your company to develop a training program. Northwest Shoals will provide the training to your standards. NWSCC staff, along with company representatives, will monitor instruction to ensure employees reach the company's training outcomes.

By partnering workforce training with the resources of our College, we are able to draw upon the most current personnel management practices along with modern equipment including computers, software, machine tools, robotics, electronics, and safety devices. Additionally, Northwest Shoals is prepared to conduct training at the times and locations convenient for our business clients and their employees.
