

Fundraising

All fund raising activities conducted by student clubs and organizations must be approved by the President.

The Intramural Program on each campus provides opportunities for students to participate in a variety of recreational sports and table games. This program enhances student enjoyment, fitness, and personal skills. Events are held throughout the year including: pool, basketball, ping pong, softball, tennis, flag football, and table games. Staff are designated on each campus to survey student interests, plan activities and implement the programs under the supervision of the Coordinators of Student Activities.
