

EDU102: Inquiry Based Lesson Design

Students continue developing the lesson planning skills learned in [EDU 101: Inquiry Approaches to Teaching](#). After observing a lesson being taught in a local school district classroom, students plan and teach three inquiry-based lessons to sixth, seventh, or eighth graders. Middle school science or mathematics classrooms are selected both for the diversity of the student body and the quality of the classroom teachers, who serve as mentors for the students assigned to them.
