

# MLT 295: Medical Laboratory Practicum Microbiology

This supervised practicum is within the medical laboratory setting and provides laboratory practice in microbiology. Emphasis is placed on medical laboratory skills and performance in areas such as recovery, isolation, culturing and identification of microorganisms. Upon completion, students should be able to isolate, culture, and analyze microorganisms utilizing various methods, report results, and manage data and quality control using information systems.

**Credits:** 2

**Lab Hours:** 2

**Program:** [Medical Laboratory Technology](#)
