CIS 202: Python Programming

This course is an introduction to the Python programming language. Topics include input and output, decision structures, repetition structures, functions, working with files, strings, object-oriented programming and inheritance. Upon completion, students will be able to demonstrate knowledge of the topics through the completion of programming projects and appropriate tests. Offered only in the summer semester.

Credits: 3
Lab Hours: 0
Lecture Hours: 3
Program: Computer Information Systems Technology
Semester Offered: Summer
