

CIS 249: Microcomputer Operating Systems

This course provides an introduction to microcomputer operating systems. Topics include a description of the operating system, system commands, and effective and efficient use of the microcomputer with the aid of its system programs. Upon completion, students should understand the function and role of the operating system, its operational characteristics, its configuration, how to execute programs, and efficient disk and file management.

Credits: 3

Lab Hours: 0

Lecture Hours: 3

Program: Computer Information Systems Technology

Semester Offered: Fall Summer
