

WMT 100: Water Supply and Wastewater Control

This course is designed to familiarize the student with water supply and wastewater control. Emphasis is on the engineering aspects of water supply, water distribution, wastewater collection, and wastewater treatment and disposal. Upon completion, students should be able to apply engineering and scientific concepts and principles of water supply and wastewater control.

Credits: 3

Lab Hours: 0

Lecture Hours: 3

Program: [Water and Wastewater](#)
